

HoseGard™

Chemical and Corrosion Resistant HDPE HoseGard

Protection for Your Hose in a Variety of Sizes

Production, service, loading and unloading areas can be harsh environments for transfer hoses, where abrasive pavement and sharp gravel can damage your hose or hose ends. HoseGard™ protects your investment by taking the beating while your hose ends stay off the ground, ensuring a clean tight connection every time.

Designed to work with any type of hose within a large range of OD sizes, HoseGard features a hard, smooth finish and is constructed of corrosion and chemical resistant HDPE material. HoseGard's durable construction resists damage from abrasive or corrosive environments and reduces wear by elevating the hose and hose ends. HoseGard protects hose ends from ground contact and elevates the hose cover during operation. This results in longer service life and a cost savings compared to purchasing replacement hoses.

Ease of Handling and Movement

HoseGard's lightweight, two-piece design with stainless steel socket head cap screws installs easily on your hose, stays in place allowing the hose to slide across the floor. The built-in handle facilitates movement, placement and carrying of the hose, while protecting workers from ergonomic-related injuries and associated costs.

**NEW SIZES AVAILABLE TO FIT
A WIDER RANGE OF HOSES**

Features and Benefits

- Works with any type of hose with OD sizes 2.150" to 4.875"
- Designed to elevate the hose to keep it clean and reduce wear and tear
- Protects hose to increase hose service life
- Two-piece design for easy installation
- Stays in place and slides across the floor for easy handling
- Built-in handle for more ergonomic movement and placement
- Robust construction resists damage
- Bright blue or yellow colors for high visibility
- Lightweight
- Patented design (Patent number D724705)

Typical Applications

- Food
- Beverage
- Dairy
- Cosmetics
- Personal hygiene
- Chemical transfer
- Solvent transfer
- CO² transfer

Available Colors

- Blue
- Yellow

Quick Attachment/Removal Option

For certain applications where it may be necessary for the HoseGard to be removed frequently from the hose, we offer an option for quick attachment and removal using pins or quick release T-Handles. No tools are required.

Please contact Customer Service for additional details.

Part Number		Hose ID Size		Weight		Can be customized to Hose OD Sizes	
Blue	Yellow	(in)	(mm)	(lb)	(kg)	(in)	(mm)
HG150B	HG150Y	1-1/2	38.1	1.9	0.86	2.150 - 2.643	54.6 - 67.1
HG200B	HG200Y	2	50.8	1.8	0.82	2.644 - 3.155	67.2 - 80.1
HG250B	HG250Y	2-1/2	63.5	1.7	0.77	3.156 - 3.719	80.2 - 94.4
HG300B	HG300Y	3	76.2	1.6	0.73	3.720 - 4.719	94.5 - 119.8
HG400B	HG400Y	4	101.6	1.4	0.64	4.720 - 4.875	119.9 - 123.8

The above part numbers can be used with Versilon™ GCR, PSD and SSW hoses.

HoseGard works for all sizes of hoses between 2.150" and 4.875" OD in approximately 1/16" increments.

Please contact us to determine what size HoseGard you need for your other Versilon hose products. Alternatively, HoseGard will work with non Versilon hoses if OD specifications are provided.
